PHILOSOPHY STATEMENT

A unique program to develop the whole child through hands-on activities in music, recreation, crafts & education. Our goal is to have each child reach their full potential through playing, learning and growing. We will focus our activities on the basic learning fundamentals using gross & fine motor skills to develop our minds and bodies.

The **Celebrating Children** Program is a unique program offering a hands-on approach to developing the whole child.

Our Program will run from September through May following the Bow School Calendar.

The Children range in age from 3 to 5 years old with one adult for every 5 children. With multiple rooms, activities will be held in small groupings. This Program is licensed by the State of NH Bureau of Child Care Licensing. We staff qualified instructors who are certified in Infant & Child First Aid and CPR.

This unique 4-day Program will be held Monday, Wednesday & Thursday from 9-12 noon and on Tuesday a designated time slot for All-Sport Day!
