

October 1<sup>st</sup>  
9am – 3:30pm  
Dunbarton Elementary School

# NH ENERGY EXPO

## 2022 Workshops

FREE Entry,  
Workshops, &  
Raffles!

Exhibitor	Time	Workshop Title	Description
<b>Wes Golomb</b>	9:45 - 10:30am	Creating a Net-Zero Home	Wes Golomb, author of Warm and Cool Homes, will talk about what it takes to build or retrofit a house to be net zero.
<b>ReVision Energy</b>	9:45 - 10:30am	Solar and Battery Storage 101	Want to learn more about clean solar energy but don't know where to start? Join ReVision Energy's Residential Sales Manager Tom Hobbs for an overview of all things solar! We'll discuss how grid-tied solar works, the all-electric household model (including heat pumps, EV charging, and battery storage), and explain how we design and price systems.
<b>Shakes to Shingles</b>	10:45 - 11:30am	NHSaves Rebates and the New Aerobarrier Air Sealing Technology	Aerobarrier air sealing is faster to install, more energy efficient, and non-toxic to the environment. Learn about this new technology as well as the NHSaves rebates that will help you make affordable energy upgrades to your home.
<b>Capital Well</b>	10:45 - 11:30am	Can I Use My Existing Well for Geothermal?	Find out when and how an existing well can be used for geothermal heating/cooling as well as domestic hot water. Tim Rapp of Capital Well will explain how it works and answer your questions.
<b>Clean Energy NH</b>	12:45 - 1:30pm	Drive Electric NH - Everything You Need to Know	Program Coordinator Josh Singer of Clean Energy NH will be giving a workshop on what goes into buying an EV in NH. Charging, range anxiety, and tax incentives will be just a few of the topics covered. You will also get a chance to ask questions, and there will be informational materials available for all.
<b>Mitsubishi Electric</b>	12:45 - 1:30pm	De-Mystification of Heat Pumps	Learn how heat pumps work! Matt Tilas of Mitsubishi Electric will explain the details of heat pump performance and operation.
<b>NH Network</b>	1:45 - 2:30pm	Energy in NH: the State of Affairs	A discussion of how energy policy is created in NH, who are the players, NH's progress compared to its New England neighbors, and an invitation to attendees to join NH Network and help advance sustainability in NH.
<b>Hillsborough County Area Renewable Energy Initiative (HAREI)</b>	1:45 - 2:30pm	DIY Assistance for Solar with HAREI	Interested in solar, but not sure where to start? Find out how the nonprofit HAREI can help you assess your solar options. Also learn how they can help you with do-it-yourself installations using their community-assistance barn-raiser model.
<b>HAREI</b>	All day	1:1 Consultations	Assess your potential for solar with basic info about your property and electricity usage.
<b>Bow Plumbing and Heating</b>	All day	Alternative Water Heaters	Bow Plumbing and Heating will run an outdoor demonstration of high efficiency or alternative water heaters.
<b>Electric Vehicles</b>	All day	EV Meet & Greet	Learn about electric vehicles by seeing them in person and talking with their owners.

# NH ENERGY EXPO

## 2022 Exhibitors

October 1<sup>st</sup>, 9am – 3:30pm, Dunbarton Elementary School

<b>Business/Organization</b>	<b>Service/Focus</b>
ABC Energy Savings	Energy Audits
Bow Energy Committee	Educational
Bow Plumbing and Heating	Hot Water Heaters, Heat Pumps
Capital Well	Geothermal Energy, Well Services
Clean Energy NH	Nonprofit (Energy Policy)
Dunbarton Energy Committee	Educational
Goffstown ACE Hardware Store	Electric Power Tools, Lighting
Granite State Solar	Solar
Hillsborough County Area Renewable Energy Initiative (HAREI)	Nonprofit (DIY Solar)
Mitsubishi Electric	Heat Pumps
Newell & Crathern LLC	Energy Audits, Weatherization, Windows
NH Network	Educational (Environment, Energy, & Climate)
Revision Energy	Solar (workshop only)
Seventh Gen Solar	Solar
Shakes to Shingles	Energy Audits, Weatherization
Wes Golomb	Author of Warm and Cool Homes
Yankee Thermal Imaging	Energy Audits, Weatherization
